

NATUZZI EDITIONS

1 - 31 JULY
2021

Our sofas are produced exclusively in Natuzzi Group sites, where skilled craftsmen handle every phase of production. An unrivalled human and professional capital, developed over 60 years of history.

MADE IN NATUZZI

The *values* that make the difference.

Ethics, Transparency, Social Responsibility and environmental sustainability are our values. To ensure respect for these values and our quality standards, we control the entire production process across every phase of the value chain. The leather is processed in the Group's tannery in Italy.

NATUZZI EDITIONS

The wood used in the frames comes exclusively from renewable forests and is transformed in our carpentry workshop. The polyurethane we use for the padding is Ecoflex. It is produced without the use of freon or other expanding substances by impe, a Natuzzi Group Company. Our OHSAS 18001 Certification formalises our commitment to the safety and health of our employees in the workplace.

Design and *innovation* in our DNA.

The design of our models begins in the Italian Style Center, in Puglia, where a team of designers, interior decorators and colour specialists studies trends, conceives new ideas and creates our innovative range of sofas and armchairs. We have always invested in research and innovation. Interpreting and anticipating consumer desires. Leafing through this catalog, you will discover how our passion for design and for seeking ever more innovative solutions represents a true vocation, one that is written in our DNA.
